Dear Ms. Nankivel,

Attached with this email, please find WaterLegacy's comments and exhibits pertaining to MPCA's Proposed Removal of Use Classifications 1B, 3 and 4A from the trout stream segment of the Dark River downstream of the U.S. Steel Minntac tailings basin.

We have attached duplicate copies of the tables of our exhibits to the comment letter as well as at the front of the exhibits. We believe that it is important for these exhibits as well as the comments to be carefully reviewed and considered by staff before further considering U.S. Steel's petition to remove Dark River use classifications.

We would request a return email today confirming your receipt of these materials.

Thank you,

Paula Maccabee, Esq.
